There was discussion about **press and other public media releases** and it was agreed that whilst local campaign groups could, and should, be responsible for generating their own press and media releases, that these should be approved by the DGP Press Officer (Frank A-S) or, if not available by another member of the DGP Committee.

A lively discussion was also held about plans for the May 2021 elections, should they occur. No specific actions were taken, but there was a general agreement that campaign groups should start identifying or selecting candidates and planning strategies for any target wards.
